RAMNOOR

LIGHTING INDUSTRIES

NEW PRODUCT

Every light tells a story. The story of Ram Noor began in the heart of darkness from a failure that led us to reflect, to stand in silence, and to strive for something better.

Ram Noor was born out of a long–standing need to restore meaning to streets and alleys — to create a light that transforms spaces into places to be, to pass through, or to simply pause amidst the routine of daily life.

Through uniquely designed lighting poles, Ram Noor aims to spark beauty and tranquility in every corner of the city.

We seek to breathe new life into streets, parks, and urban spaces, to help us appreciate light beyond its contrast with darkness.

At Ram Noor, each lighting fixture is where art meets engineering.

With exceptional designs and the finest materials, we offer illumination that is both functional and visually inspiring.

Today, thanks to the expertise of our local engineers, Ram Noor has succeeded in designing and manufacturing lighting poles with exclusive, custom cross–sections — born from native technical knowledge and production technologies.These poles not only carry a refined aesthetic but also meet rigorous structural standards, ensuring long–lasting durability and elegance.

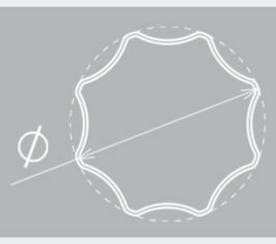

We believe that true beauty lies in the details, and every cross–section designed by Ram Noor is our response to the growing need for blending functionality with art in modern cities.

This milestone marks a turning point on the path to self–sufficiency and elevating the quality of urban lighting products.

Setareh

The "Setareh" cross-section, with its unique curves and flowing lines, is inspired by the beauty of the night sky. This distinctive design gives the lighting pole an artistic and eye-catching appearance, making it an excellent choice for special urban spaces and projects seeking a unique visual identity.

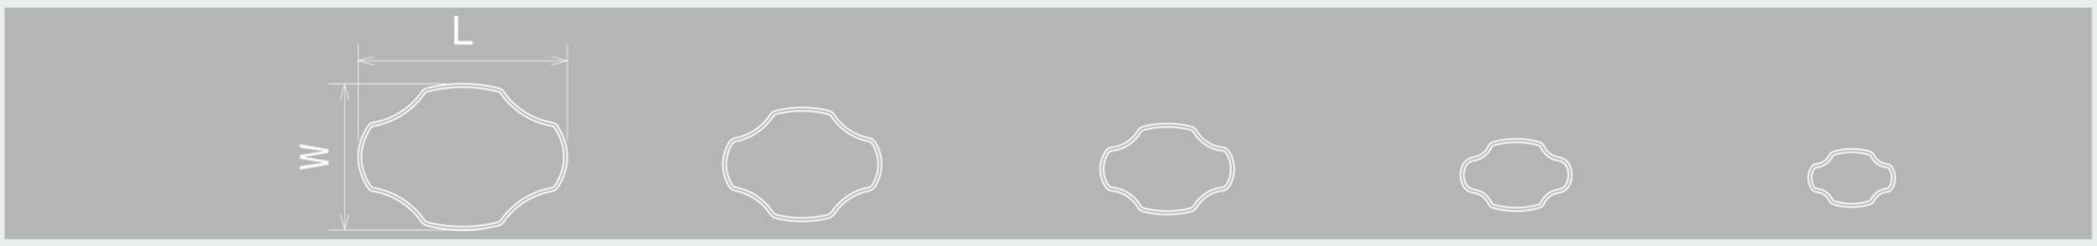

Diameter	220	168	140	115	90	75	60
Thickness	2‹3‹4	2‹3‹4	2‹3‹4	2‹3‹4	2‹3	2‹3	2‹3

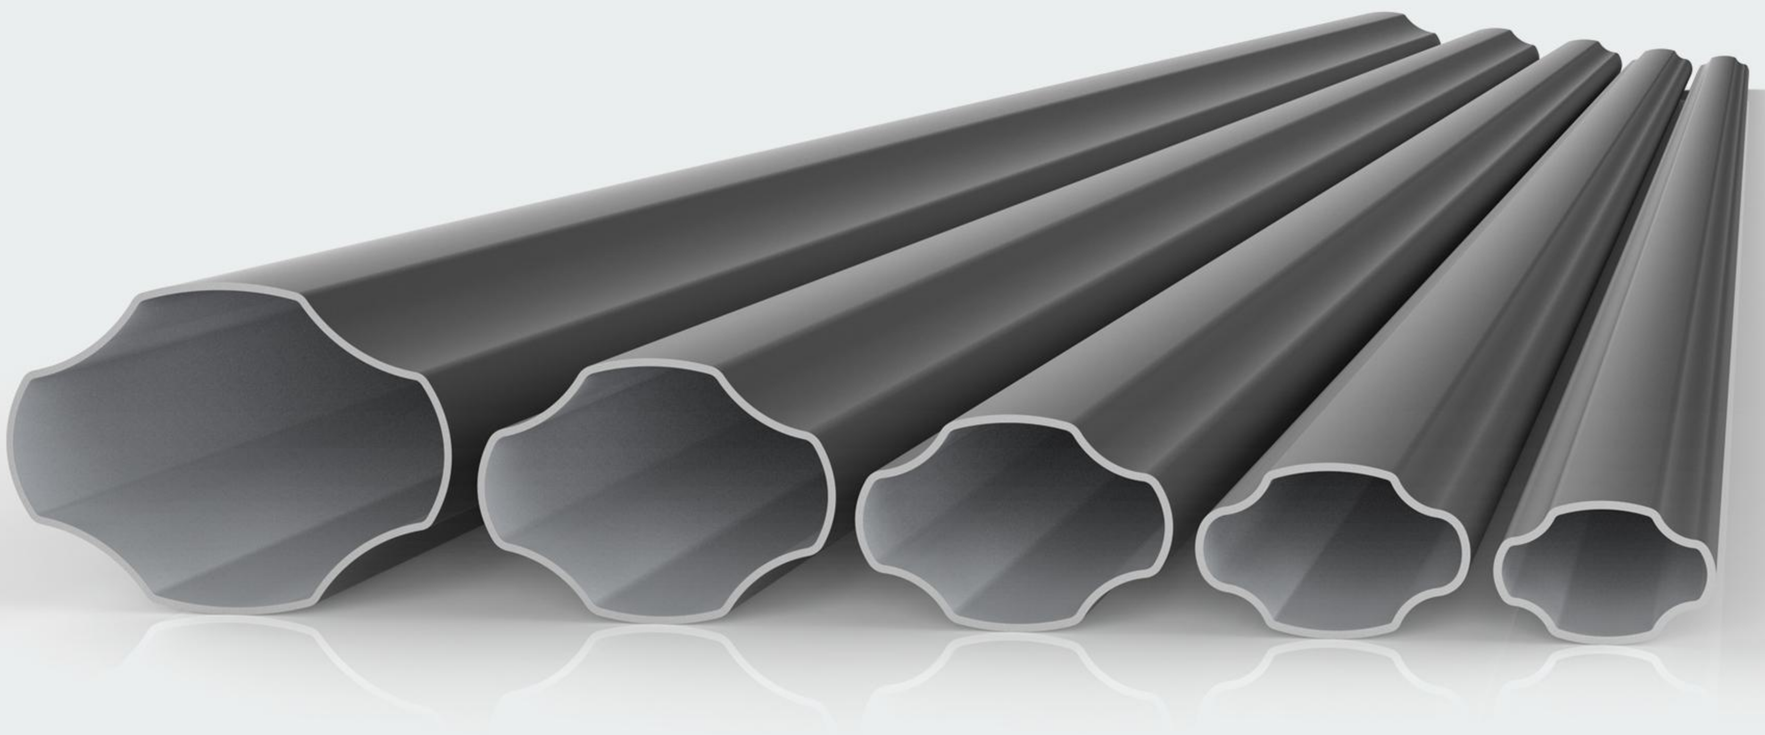

Toka

The "Toka" profile blends soft lines with geometric curves, symbolizing balance and tranquility in design. Its simplicity adds a sense of elegance and lightness to the lighting pole, making it highly suitable for green spaces and calm urban pathways.

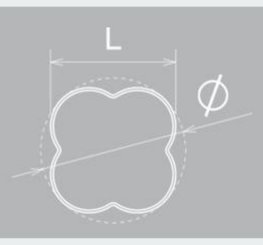

Length	255	195	160	135	105
Width	180	140	110	85	70
Thickness	2،3،4	2،3،4	2،3،4	2،3،4	2،3
